

Installing a Beam Central Vacuum System is even easier when you go wireless.

Introducing the latest technological breakthrough from Beam: The Prism Wireless Control System integrated into the Beam Advocate™ Power Team™. Tested by dealers and distributors around the world, the Prism sweeps away the hassle of having to install a low-volt wiring system throughout your home.

GO WIRELESS WITH BEAM!

System Components:

Beam Advocate™ Power Team™ comes with **Prism Wireless Handle** and the **Receiver**, which mounts near the power unit #012236

Optional Accessories:

Repeater #100580
used in larger homes or homes with concrete floors to relay signal

Automitter #100579
Enables automatic dustpans to be wireless

- Easier installation
- Less wiring
- Beam quality you can count on

Cleaner, healthier living. Built in.
